Terry Brutus, (M.S.E.)

Lead Instructional Systems Designer
Alexandria, Virginia, United States

Summary

I build training that works—for learners, for teams, and for the mission.

With 7+ years leading instructional design across federal and defense programs, I develop SCORM-compliant, Section 508-accessible content that reaches over 10,000 learners each year.

I've rebuilt entire courses from scattered source files, authored screen reader-friendly content, and coached teams through complex delivery cycles—always with a focus on clarity, quality, and scale. From instructor-led materials (IG/SG, slides, and job aids) to LMS-ready digital content, I bring structure to chaos and deliver when it counts.

Experience

Cybermedia Technologies, Inc. (CTEC)

Lead Instructional Systems Designer

May 2021 - Present (4 years 5 months)

McLean, Virginia, United States

Lead eLearning design for DAU federal training programs, building SCORM/508-compliant on-line training (OLT) content across acquisition, logistics, and contracting tracks.

- Deliver SCORM-compliant training to 10,000+ learners annually using ADDIE, Bloom's Taxonomy, and Gagné's Nine Events; familiar with xAPI concepts and data models when scoped
- Led an instructor-led Logistics training course redesign from fragmented documents to Instructor and Student Guides (IG/SG) and accompanying slide decks
- Delivered 13+ JSON update packages in under 3 days for an acquisition management course
- Co-led AI for Accessibility presentation to 50+ peers
- Remediated long image descriptions for three simultaneous Cost Accounting Standards (CAS) courses to meet 508

- Advised devs on UI tweaks in an internal course mapping tool to improve team efficiency by ~25%

Pinnacle Solutions, Inc.

Instructional Systems Designer

March 2018 - May 2021 (3 years 3 months)

Huntsville, Alabama

Delivered SCORM- and Section 508-compliant military training modules for the U.S. Army, supporting computer-based simulations, interactive learning, and curriculum redevelopment.

- Led instructional design during field deployment to Fort Leonard Wood, co-conducting SME interviews and defining curriculum structure for a five-vehicle tactical training program
- Created wireframes, lesson scripts, learning activities, and performance exercises across 12+ modules under the CBID II (Computer-Based Instructional Development) initiative
- Provided feedback on Theseus (internal authoring tool), documenting bugs and suggesting UI changes to streamline lesson production
- Became Pinnacle's first fully remote ISD based on performance; supported cross-time-zone teams while mentoring junior designers
- Contributed to After Action Reviews (AAR) and developed comment adjudication trackers that improved revision turnaround during delivery crunch windows

VXPLO Innovation Lab

Interactive Solutions Intern

July 2017 - October 2017 (4 months)

Hong Kong

Supported the pre-launch phase of an online software platform, offering feedback on interface usability, instructional content, and support materials.

- Logged bugs and content suggestions during live testing
- Provided accessibility-focused copy suggestions for global users
- Monitored customer queries via Zendesk and proposed product refinement

Education

Samford University

Master of Science in Education (M.S.E.), Instructional Design & Technology · (2016 - 2017)

University of Mississippi

Bachelor of General Studies (B.G.S.), Minors: Computer Science, Business, and Education · (2012 - 2016)

freeCodeCamp

Full Stack Web Development Certification (Front-End), Computer Software Engineering · (2017 - 2018)

Massanutten Military Academy

Preparatory School · (2011 - 2012)

Long Island Lutheran Middle & High School

· (2009 - 2011)
